In terms of graphics, a great agreement has been improved from the original Games of Fired and LeafGreen. In addition, some incredible revolutions of many characters are now part of the game because in previous editions we have seen that many characters have no evolution at all. Z-moves are also new in the game, and allow Poké © Mon to use an extremely powerful movement once by battle. The ability to represent the coaches. When used in battle, Z-Moves unleash an incredibly powerful attack that can cause massive damage to the opponent. This means that you can really see the expressions on the faces of the characters, and when they attack, it seems that they are really hitting their opponent. The game is currently under development, but you can download a demonstration at this time and start playing! Graphics and movements: Speaking of the game graphics, you will notice that how much progress is the graphics! Because the quality is And all 3D elements have impressive quality graphics in the game. One of the things that makes Poké © mon's games have both graphics and movements. A % l of Mega Evolutions and Z-Moves. Previously, Pokemon was ordered in one of six types of elementary elements, and each type had strengths and weaknesses against other types. For example, a water type Poké mon can be weak for fire-type movements, but if he knows a special movement that is not based on fire, you can still use that movement against an opponent of type of type of fire. Some impressive graphic effects make the graphics and the environment of the game more impressive to explore and look for different hidden objects. You have to travel through the city to find some kind of mysterious articles and make the tasks complete. You can also look for wild pokemons that you have to train them before they are released in the open environment. Some new movements have also been added, such as the unpleasant plot and the ball of time.
